

Al-Haitam for industries and economic development is an ISO certified company, established in 2000, as an industrial supplier for products and services in Saudi Arabia. Head quarter of Al-Haitam is in Khobar city with an outreach to a discerning customer base spread across the kingdom.

Our business model is anchored around supply of top quality, state of the art solutions in Saudi Arabia industrial market through four Strategic Business Units: Power Transmission & Distribution, Power Generation, Chemicals and Water. All Strategic Business Units represent a wide network of well-known international manufacturers and principals. Al-Haitam offers a full fledge end-to-end logistics services through IK chemical licensed warehouse, 6,000 m² covered area general warehouses and transportation services.

Company Strategy

Vision

To provide quality products and services that meet and exceed the expectations of our esteemed customers, grow our people, and invest in our businesses.

Mission

Be recognized as a supplier of choice by our customers and a preferred partner by our principals. We endeavor to build long-term relationships, provide exceptional experience in every interaction, drive profitability by pursuing business excellence and deploy advance technology.

Core values

We believe in treating our customers with respect. Earn their faith by integrating honesty, integrity and business ethics in all aspects of our business dealings.

Goals

We aim to build an enviable reputation in the field of supply and become a major player in the industry. This shall be achieved through regional expansion in the field of supply chain management, secure and serve a strong customer base, increase investment by the company to support and develop new technologies, and to expand the range of products and services.
